

## BioPharma Catalyst Event Tracker

### Stay Ahead of the Curve with the Industry-Leading Catalyst Event Database

Navigate the fast-paced world of biotech and pharma with confidence using our comprehensive catalyst event database. Every day, we capture critical events from company reports and categorize them with precise, standardized data to meet your tracking and modeling needs. Our database features detailed tagging of standardized drug names, disease areas, modalities, novelty status, development phases, plus specific model outputs from our proprietary libraries designed to support informed actions.

Whether you're interested in future clinical readouts, enrollment goals, PDUFA dates, IND filings, or more, our robust database offers unparalleled insights. With over **14,000** upcoming events covering over **1,000** tickers and over **4,000** distinct products, you'll have the competitive edge you need.

### Why Choose Our Catalyst Event Data?

#### Comprehensive source of clinical events

- *Multiple sources from around the world*
- *Multiple catalyst event types*
- *Validated and anticipated events*

#### Data Designed for Driving Action

- *We provide dates when everyone else has only general estimates*
- *Delivering ticker and market reactions around announcements*

#### ID the events that will make an impact

- *Volatility potential using our proprietary model for clinical outcomes*
- *Magnitude of pipeline impact of catalyst event on company*

#### Unrivaled Industry Data Quality

- *Standardized product, biological target and modality for search and modeling*
- *Clear and consistent taxonomy for disease area search*

Data Element	Description	Example
<b>Catalyst Date</b>	Date the event is expected to happen or happened. Dates consists of exact dates, estimated dates for clinical outcomes or general timing from company such as 1Q24, YE24, etc.	2024-09-16
<b>Ticker</b>	Ticker for the company listed in the article and the owner of the asset that is mentioned.	BDTX
<b>Ticker Exchange</b>	Ticker exchange the company ticker is listed	Nasdaq
<b>Company</b>	Company listed in the article and the owner of the mentioned treatment	Black Diamond Therapeutics
<b>Treatment</b>	Name of treatment identified in and driving the catalyst event	BDTX-1535
<b>Biological Target</b>	Lists the given asset's mechanism of action	EGFR Inhibitor
<b>Modality</b>	Lists the modality of the given asset (e.g. Antibody, Antibody Drug Conjugate, Gene Therapy, Small Molecule, etc.)	Small Molecule
<b>Novel Product</b>	Lists if the given asset has been approved in the past	Yes
<b>Novel Target</b>	Lists if the given asset's mechanism of action/target has been previously approved	No
<b>Indications</b>	Disease Area of clinical development for the product mentioned in the event/article	Non-Small-Cell Lung Cancer
<b>Phase</b>	Phase of clinical development for the product mentioned in the event/article	P2
<b>Catalyst Type</b>	Category of catalyst event (e.g. Clinical Outcomes, Enrollment, IND, PDUFS etc.)	Clinical Outcomes
<b>Source Type</b>	<i>Categorizes the source of event</i> → <b>Validated</b> – event validated through a company announcement. <b>Predicted</b> – Prediction from OZMOSI's model based on clinical activity. <b>Expected</b> – Based on posted clinical completion date	Validated
<b>Source Date</b>	Date the event/news article was posted publicly	2024-08-06 07:30:00
<b>Catalyst Summary</b>	General summary of clinical outcomes and PDUFA events	BDTX plans to share trial results...
<b>Ticker Movement</b>	Daily ticker movement from start to close the day the event was publicly validated	-6%
<b>XBI Movement</b>	Daily index movement from start to close the day the event was publicly validated	1%
<b>XPH Movement</b>	Daily index movement from start to close the day the event was publicly validated	0%
<b>Drug share of co</b>	Measures from 0-100 how important the treatment is to the company's pipeline	1
<b>Stock event prediction</b>	Our proprietary model prediction for whether or not there is potential for volatility related to this event	1
<b>Confidence in prediction</b>	Confidence interval for our prediction of potential for volatility related to this event	0.653315014
<b>Catalyst Date Type</b>	Identifies if the catalyst date was provided, predicted or expected	Estimated
<b>Details/Title</b>	Details or title of source data for catalyst event	BDTX Reports Second Quarter 2024 Finan...
<b>Announced Date</b>	The date that was provided by announcement and applied to the catalyst date field	3Q24
