TenderAlpha US Subcontracting Data Feed

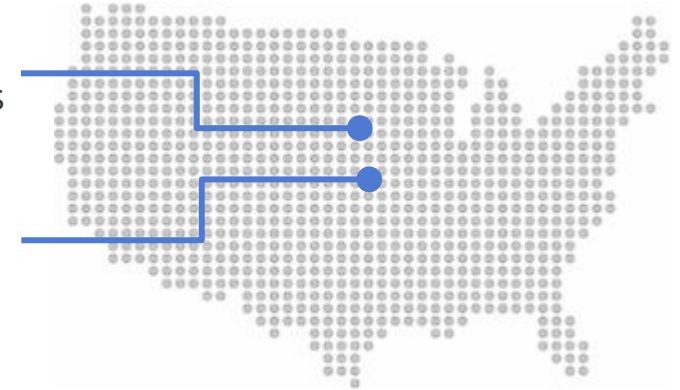

The **TenderAlpha US Subcontracting Data Feed** is a powerful source of information about **second-tier suppliers** to the US government. It allows for a deeper analysis and understanding of US public procurement, serving as a tool for both investment analysis, as well as monitoring foreign exposure and detecting irregularities.

Data is collected from open government sources, it is ticker-mapped and features daily, weekly or monthly updates.

55 000+
Companies

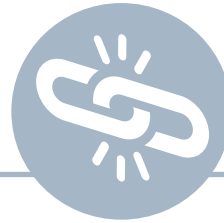

900+
Unique
Public Sub
Awardees

TenderAlpha's **US Subcontracting Data Feed** can serve a variety of customers, ranging from financial institutions, corporates, academic institutions, think-tanks, and NGOs. Some potential applications include::

Monitoring subcontractors to identify emerging investment opportunities and critical suppliers to the US government in order to predict stock price movements of involved companies

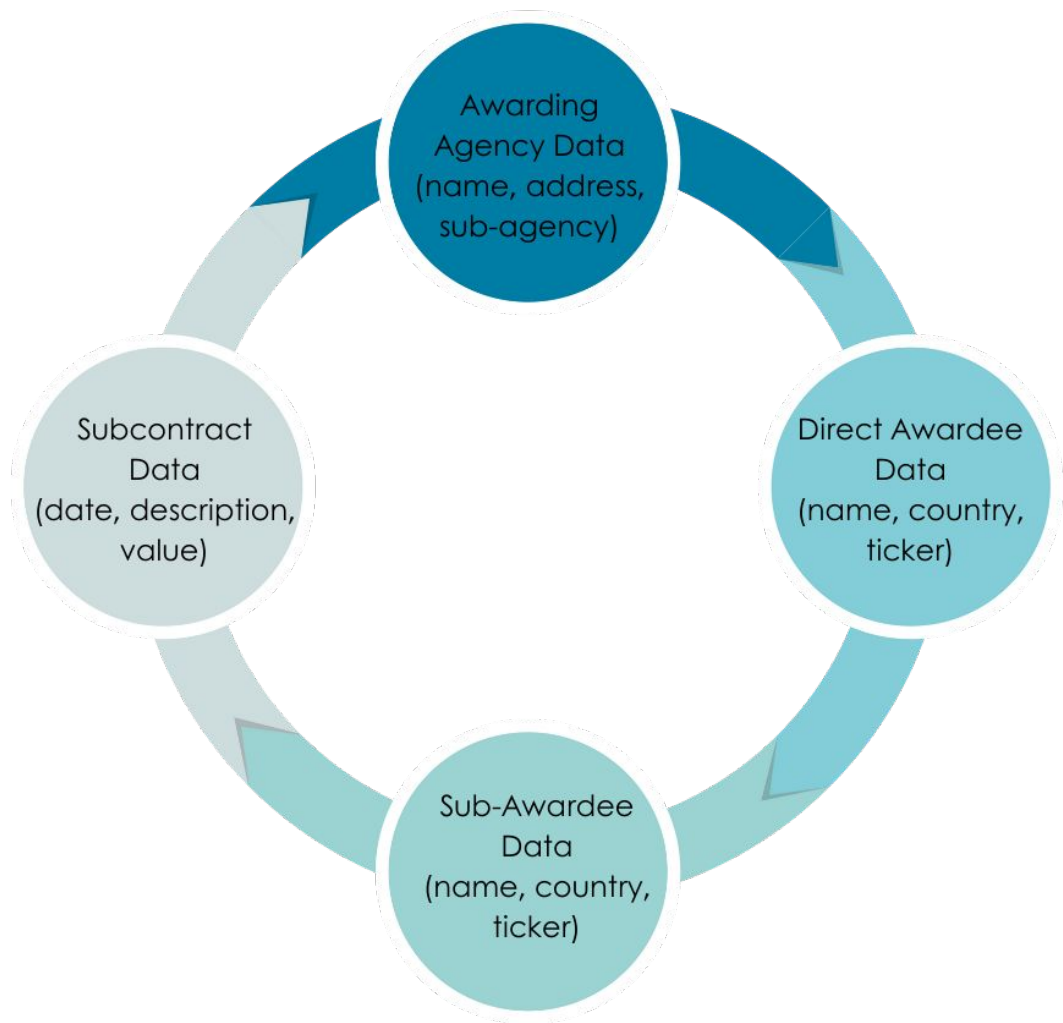

Identifying potential vulnerabilities in the government supply chain such as reliance on foreign companies/countries for strategic resources

Mapping global supply chains of strategic partners to the US government to serve as both investment analysis and risk monitoring tool.
