WHAT YOU GET:

Expanded Coverage. Physical corn and soybean prices across 60 Brazilian origination and export hubs.

Export Benchmarks. FOB Santos and Paranaguá pricing alongside interior basis levels.

Trusted Methodology. Sourced from Grão Direto's transactional network; aligned with IOSCO Principles for Price Reporting Agencies.

BUILT FOR

Traders

Basis discovery and arbitrage across Brazilian origins.

Quants

Alpha signals from origination flow and export basis.

Risk Teams

Mark-to-market and exposure on physical positions.

Producers

Benchmarking forward sales against transparent pricing.

Barchart is Data.

With this dataset, Barchart delivers daily, transaction-backed cash pricing for corn and soybeans across approximately 60 Brazilian agricultural regions, including FOB Santos soybean pricing, powered by Grão Direto

USE CASES:

Institutional firms can combine commodity futures with localized cash-market data to improve basis analysis, regional arbitrage modeling, procurement workflows, supply chain analytics, and systematic trading research.

APPLICATIONS:

AI/ML workflows and execution analytics environments where physical commodity transparency is increasingly critical. Suitable for hedge funds, commodity merchants, agribusinesses, banks, and analytics platforms seeking production-ready agricultural market data.

WHY BRAZIL?

A Global Agricultural Powerhouse

Top Export in Commodities

- | | |
|------------------------------------|-------------------------------|
| #1 Soybean Producer & Exporter | #2 Corn Exporter |
| #1 Cotton Exporter (surpassing US) | #1 Coffee Producer & Exporter |
| #1 Sugar Producer & Exporter | #1 Beef & Chicken Exporter |

Top Produced in Commodities

% of global production · 2023/24

Commodity	% Global	2023/24
Orange Juice	72%	1.07 M
Coffee	39%	66.3 M
Soybeans	39%	153 M
Sugar	25%	45.5 M
Beef	18%	10.95 M
